Cool Places on the Web

The Internet has become big business, and with business comes a lot of seriousness. But there's nothing serious about these cool websites. If you need to cure boredom, then you need an injection of an old-fashioned remedy: web surfing. Click on the title to go the website.

[Flixster](#) - This really cool website should come with a warning label that reads, "Do not enter if you are short on time." For anyone that likes movies, this site is simply addicting. Watch out for the never-ending trivia game -- it never ends!

[StumbleUpon](#) - StumbleUpon is like having a remote control

for the web where you can flip through website after website. A word of caution, though, stumbling can be addictive and can lead to a sore pointer finger from repetitive clicking.

[Weatherbonk](#) - Have you ever wanted to be a weather forecaster? Skip the years at Meteorologist School, save thousands of dollars and just go to Weatherbonk. This neat website not only gives you a visual map of the weather, but you can also see how traffic looks.

[World Golf Tour](#) - Move over champions of the game, there is a new king of golf games now! Well, okay, maybe World Golf Tour won't cause sales of other champion's golf games to plummet, but it's still pretty fun to play.
